"I'm tired of hearing of a Black history which begins with slavery. A
perfect example is the popular Black history book, *From Slavery to
Freedom*. Wherever there is humanity, you find Black people. I want all
Black people to embrace their African-ness. Why is this important for us?
Because we are trying to become whole again. What you do for yourself,
depends on what you think of yourself. And what you think of yourself
depends on what you've been told."
--Dr. Runoko Rashidi --

"The fact that we Africans in America lack a thorough knowledge of
self and others is taking a devastating toll upon us. If our children knew our
ancestors created the first civilizations and the great cultures of the Nile
Valley, Nubia, the Sudan, Ethiopia, Southern Africa, Mesopotamia and
Indus Kush, would they still kill each other over sneakers and clothing with
other folks' names, images and logos on them. I don't think so."

--Junious R. Stanton "The Power of History"--

"My people are destroyed for lack of knowledge"

"Patriotism is the last refuge of a scoundrel."
--Samuel Johnson--

If you want to see men at his worst,
observe what he does to fellow men in the name of a God."
--Wallace Stevens--

"The racial problem in American society is not a 'black problem.' It is a
'white problem.' If there are racial ambiguities, conflicts, and contradic-
tions in black America, it is only because these factors are deeper and
more far-reaching in white America. The time has come to attack the
causes of the racial crisis, not the victim. We must shift the focus of the
problem from black to white."
--Robert W. Terry, *For Whites Only*, 1970--

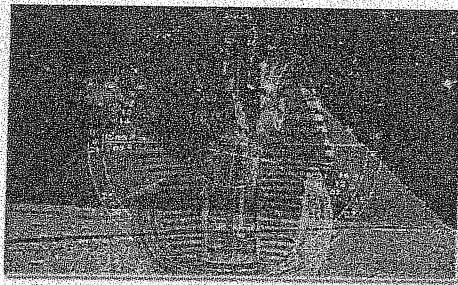

"I have found the highest level of racial bigotry in those White neighbor-
hoods that fly the most American flags, including discrimination or
exclusion of Blacks from obtaining fair housing." (1999)
--Whitney M. Young Jr., Executive Director, National Urban League--

"One nation, under God, indivisible, with liberty for 'just us' whites."

--Julius Nyerere--

"National leaders can blather all day long about lifting America's
educational standards and performances,
but the hard question centers on government's willingness
to equalize the underclass's
resources. . . It will take more than money to turn out an
educated citizen, but the current
maldistribution of resources ensures the underclass's failure."
