"Black History Month is a seamless part of the national story and is a central part of the narrative of the American past. It's not what we do between Feb1- Feb 28, but how we should be educating our children all year long about the centrality of the black experience in this country and indeed...in the world"

- Dr. Khalil Muhammad; Director, Schomburg Center for Research in Black Culture, New York

Greater Enrichment Program, Inc.
Child Focused. Family Centered.
