STEM EDUCATION

# SATURDAY ACADEMY PROGRAM

The Center for STEM Education at UNC Charlotte offers a STEM Pre-College Program to broaden the pool of students pursuing mathematics, science, and engineering majors and careers. Students in grades 6-12 with interests in math and science are encouraged to apply.

The program consists of ten Saturdays during the academic year. Historically, participants engage in various hands-on-enrichment activities in STEM (Science, Technology, Engineering, and Mathematics). Activities include: field trips, lectures and demonstrations by UNC Charlotte faculty/staff/students, robotics; math and science competitions, SAT/ACT preparation; STEM Fairs, Science Olympiad and more.
